**Visual Design:** Brand Identity, Social Media Design, Poster Design, Marketing Collateral, Photo Retouching, Packaging Design

### WORK EXPERIENCE

#### UI/UX & Graphic Designer — Silvercayde

Nov 2024 – September 2026

- Design web and digital interfaces, landing-page layouts, promotional creatives, and branded visual assets using Figma and Adobe Creative Suite.
- Create wireframes and high-fidelity UI layouts in Figma, focusing on clear information hierarchy, intuitive navigation, responsive layouts, and consistent visual patterns.
- Develop reusable UI elements and visual components to maintain consistency across digital interfaces and design deliverables.
- Design promotional banners, social media creatives, digital advertisements, and other campaign assets while maintaining brand identity across different platforms.
- Apply typography, color, spacing, grids, visual hierarchy, and composition to create visually engaging and user-friendly digital experiences.
- Translate creative requirements and brand guidelines into UI layouts and visual designs, balancing usability, aesthetics, and communication objectives.
- Create and refine image assets using Adobe Photoshop, including retouching, composition, color correction, and visual enhancement.
- Collaborate with stakeholders and creative team members to review designs, incorporate feedback, and iterate on UI and visual concepts.
- Manage multiple UI and graphic design deliverables from initial concept through final production while maintaining quality and consistency.

#### UI/UX & Graphic Design Intern — Ambizor

Jul 2024 – Oct 2024

- Created **UI layouts, digital designs, and visual communication assets** using Figma, Adobe Illustrator, and Photoshop based on project and campaign requirements.
- Developed wireframes and interface concepts with attention to **user flow, content hierarchy, navigation, spacing, and responsive layout principles**.
- Designed branding materials, promotional creatives, social media assets, and print layouts for an eco-friendly campaign.
- Built visual concepts and reusable design elements while maintaining consistency in typography, color palette, imagery, and brand identity.

- Used Figma to explore interface layouts and digital design concepts, iterating on designs based on creative requirements and team feedback.
- Created vector graphics, illustrations, and supporting visual assets using Adobe Illustrator and Photoshop.
- Collaborated with the creative team throughout the design process, incorporating feedback and refining layouts before final delivery.
- Delivered multiple UI and graphic design assets within project timelines while maintaining visual quality and consistency.

## UI/UX & DESIGN PROJECTS

---

### CareConnect - Mobile UI

**Tools:** Figma

- Designed a ten-screen mobile experience for parents and family caregivers, covering medicine reminders, check-ins, family sharing, and help.
- Created distinct parent and caregiver flows with scannable information and permission-based updates.
- Built a mobile style guide for color, typography, icons, controls, and cards, and presented the screens in an interactive prototype.

### Morrow Coffee - Visual Identity Concept

**Tools:** Adobe Photoshop, Adobe Illustrator, Figma

- Developed a self-initiated identity for an imagined coffee brand, centered on a bold lowercase wordmark and sunburst symbol.
- Established a cobalt, apricot, and warm paper palette with a repeatable ray pattern for consistency across applications.
- Applied the visual system to a coffee bag concept, cup, card, and social graphics.

### No Cheat Progelato - Packaging Design

**Tools:** Adobe Illustrator

- Designed a coordinated seven-flavor pouch range with distinct colors, product imagery, and a shared information hierarchy.
- Adapted the packaging system for each flavor while keeping the full product family visually consistent.
- Presented the artwork through individual pouch mockups and a full-range product visual.

## EDUCATION & CERTIFICATIONS

---
